

For Claude Design

Publishing Calendar = Publishing Intelligence Center.

It must not look like a simple date calendar. It should show **why** AGNUS schedules something.

Keep

Keep the monthly calendar view, status chips, and warning banner.

Add a top intelligence panel

Publishing Intelligence

Ready to publish: 4

Scheduled: 6

Needs update: 3

Cluster gaps: 8

Revenue forecast: €740/mo

Best next publish: Restaurants Guide

Reason: high keyword demand + weak cluster + approved article

Every calendar item should show

Title

Status

Cluster

Article type

Readiness

Expected traffic

Expected revenue

Priority

Clicking an item opens a drawer

Drawer sections:

Article Summary

Why Scheduled Here

Readiness Checklist

Source Signals

Cluster Impact

Revenue Forecast

Dependencies

Actions

“Why Scheduled Here” must show connected data

Example:

Keyword Discovery: opportunity score 8.7

Topic Clusters: Restaurants cluster 42%

Human Review: approved

AI Writer: quality 91/100

Affiliate: high value

Performance: Sundays perform well

AGNUS Brain: recommended this week

Optimize Calendar

Final design rule

Every scheduled item must answer:

“Why this article, why this date, and what business impact is expected?”
